**MATERIAL SUBSTANCE**

**The issues and concerns of the ANC about the appeal, petition, or application as related to the standards of the Zoning Regulations against which the appeal, petition, or application must be judged (a separate sheet of paper may be used):**

The Commission considered whether the special exception would be in harmony with the general purpose and intent of RA-1 zoning, which we believe it would be. The Commission also considered whether, if granted, it would affect the use of neighboring property in accordance with the Zoning Regulations and Zoning Maps. Neighbors raised concerns that additional the housing units would increase waste disposal needs and that if not properly managed, it would exacerbate the rat population and thereby impact neighboring properties. The applicant indicated that trash receptacles will be located on the existing concrete pad, which will be repaired as it is currently in poor condition.

**The recommendation, if any, of the ANC as to the disposition of the appeal, petition, or application (a separate sheet of paper may be used):**

The commission recommends approving the special exception application. The applicant has addressed concerns regarding waste disposal, and is taken steps to prevent rats from burrowing underneath the trash receptacles. The special exemption would enable the applicant to add two additional units to the property, increasing potential housing options for residents of ANC 4D.
