

I am writing in support of the variance requested by Negril DC. I understand that they will be closing their existing GA Ave location next month; this would be a big loss to the neighborhood as they are a popular and locally-owned restaurant. With a number of businesses closing recently on this stretch of GA Ave, supporting local businesses and filling in empty storefronts should be a priority for the neighborhood. As a near neighbor of the new location, I would be thrilled to have Negril so close by, and for them to remain a part of our community.
