Hi there-

I tried to stop by last week to you to give you a heads up, but it looked as though you were away during your remodel. My contractor mentioned you stopped by a little while ago, and I just wanted to reassure you that we're only building a carport to cover my car. As you'll recall, the downspout from the neighbors house fell on my car a few months ago, and caused more than \$7k in damage! I've also had bottles and cups that have landed in my yard and on my car from her terrace. Rest assured that we're not going to cover your window or obstruct your view or light in any way. Happy to chat about it further if you'd like.

Thanks.

-Paul

Hi Paul, nice running into you. Would you mind sharing the permit that you mentioned you got approved? Also, if you did get a zoning ordinance that'd be helpful as well. I didn't receive any notification prior and haven't seen anything posted. Thanks!

Hi Paul, I need to get access to the exterior side of my downstairs window as there is a leak. Is there a time this week my contractor can get access? Thanks.

Hi Paul, Would you kindly remove the black tarp from the exterior of my living room window? It has made my living room much darker and is impacting the view from my living room. I would appreciate you removing this at your earliest convenience. Thank you.

Hi Paul, following up on my request sent last Wednesday (9/5). It appears you have placed a flag over the other window in my living room. These obstructions are causing my living room to be much darker as they're impacting the amount of natural light that can be received. I'm requesting again that you remove the black tarp and the newly added flag as

I'd also like to reference back to your communication on 7/8/24 in which you stated "rest assured we're not going to cover your window or obstruct your view or light in any way" as you were only installed a carport. Hoping to resolve this asap. Thanks.

Based on your recent actions, including the placement of a camera into my property, I'm concerned about my safety and privacy and feel I need to protect myself.

Your living room window is an "At Risk" window, and legally I'm allowed to place furniture, plants and flags on my deck, or wherever I wish on my property.

I'm sure you can understand my need to protect myself and my right to privacy and security.

Hi, I'm dealing with a pest issue and had Terminix out today to inspect and they think that the pests are getting access through an opening in the exterior and want to inspect so that they can fill in any holes to block entry. Is there a time that they can get access to the exterior of my property? Thanks.

Jackie-

I wanted to maintain an amicable relationship with you, as I have with all of my neighbors, and I had with the prior owners of your property. You chose the opposite.

Sorry to hear about your pests but, based on your actions, I will not allow you access to my property.
