**MATERIAL SUBSTANCE**

The issues and concerns of the ANC about the appeal, petition, or application as related to the standards of the Zoning Regulations against which the appeal, petition, or application must be judged (*a separate sheet of paper may be used*):

ANC 4D has previously indicated its support for by-right development in keeping with RA-1 zoning through a resolution the commission passed in March 2025. The commission considered whether the design was in keeping with purpose of RA-1 zoning. ANC 4D also considered whether there was sufficient protections against potential rodent infestations, which if not prevented could cause substantial detriment to the public good.

The recommendation, if any, of the ANC as to the disposition of the appeal, petition, or application (*a separate sheet of paper may be used*):

ANC 4D believes that the application is consistent with the purpose of RA-1 zoning and should be approved. In response to questions raised by ANC 4D at our October 2025 meeting, District Line responded that it will implement Consistent Reports to the city for treatments, ensure more frequent trash pickups and additional trash control measures (to address the gathering points and sources of rodents at the main cause); and implement preventative bait stations and ongoing treatments from third party rat/rodent control providers
