DC Board of Zoning Adjustment
2nd Floor Suite 210
441 4th Street, NW
Washington, DC 20001

Chair and Members of the Board:

Pursuant to its authority to review and report on Special Exceptions within the U.S. Capitol precinct, the **Architect of the Capitol** has found the relief requested to construct a two-story rear addition to an existing, semi-detached, two-story plus cellar, principal dwelling unit in the RF-1/CAP zone at 511 3rd Street, NE (Square 0779, Lot 0095) that does not meet lot occupancy requirements under Subtitle E § 210.1 **is not inconsistent** with the intent of the RF-1/CAP zone and **would not** adversely affect the public health, safety, and general welfare of the U.S. Capitol Precinct and area adjacent to this jurisdiction. The **Architect of the Capitol has no objections to this application. The Applicant, however, is still responsible for meeting the burden of proof associated with the relief requested and consistency with general intent of the Zoning Regulations, and should provide the Board with adequate testimony that the relief requested has little or no impact on the adjacent neighbors.**

Sincerely,

Joseph Imamura, Ph.D., AIA, FASLA, FAICP
Special Delegate of the Architect of the Capitol
