Subject: Letter of Recommendation for the Expansion of Child First Step LLC

To whom it may concern,

We are writing to you today as parents and members of this community to express our enthusiastic support for Rosilene Ribeiro and Child First Step being expanded from an expanded-home program to a full-scale child development center.

Our family has been a part of the CFS community since our child was six months old. Entrusting the care of an infant to others is a significant decision, and Rose and her team have made us comfortable and given our child a nurturing environment from the beginning. We have seen him grow and learn so much during his time there; from achieving developmental milestones to the way he engages with the world around him, his progress is a direct result of their expertise. Perhaps most importantly, he is genuinely happy to be there every single day. Seeing him light up when we arrive and he sees Rose gives us immense peace of mind, knowing he is in a place where he is not just supervised, but truly nurtured, loved, and encouraged to thrive.

Expanding CFS from a home program to a full-scale child development center and being able to serve more children would be an investment in our community, giving additional families the opportunity for their children to receive this high-quality care and education. The expansion would enable Rose and CFS to offer a broader range of educational activities, professional staff, and improved resources that are essential for early childhood development. By providing a stable, high-quality environment for children to grow, CFS supports working families in the community and ensures our youngest citizens are prepared for future success.

As a parent, I not only want the best for my child, but I also want our community to be a place where all children have the opportunity to start their education on the right foot. Rose has proven she has the heart, dedication, and capability to provide that foundation. CFS is truly an asset to the community, and by approving this expansion, you are helping to build a stronger, more vibrant future for our neighborhood. We could not be more grateful for the level of care our son receives, and we look forward to seeing CFS grow so it can serve even more families with the same excellence we experience every day.

Sincerely,

Amanda and Skye Frontier
