

Jack Devilbiss, AIA, LEED AP BD+C

Partner, Senior Project Team Leader
McClennan Architects, LLC

Jack Devilbiss, AIA, LEED AP BD+C has 20 years of experience in the architectural profession. From his work in residential, retail and commercial design, Mr. Devilbiss has extensive project experience with a wide variety of project types and scale. As a Partner | Senior Project Team Leader with McClennan Architects, Jack's focus has been on the adaptive use of existing apartment buildings within DC Historic Districts. This work has included all levels of renovation from interior, cosmetic rehabilitation to work including substantial alterations and additions as well as building system modernization. Jack has worked closely with DC DOB and Zoning officials, DC Water, DDOT and DC historic preservation agencies as well as with community and neighborhood organizations. Jack currently serves on the DC Preservation League Design Committee, and has volunteered in various capacities with the Washington Architectural Foundation and the University of Maryland Real Estate Development Program.

RELEVANT PROJECT EXPERIENCE

The relevant project experience shown below includes Jack's residential work. These projects are a selection from Jack's portfolio with over 140 multi-family, commercial, retail, and office buildings. Jack led all the projects listed below as a Senior Project Team Leader. This selected work was performed during Jack's tenure with Bonstra Haresign Architects, LLP

Carver Hall, Washington, DC – Senior Project Team Leader for the renovation and adaptive use of the historic dormitory-style housing Carve Hall into a 63-unit modern apartment building.

Slowe Hall, Washington, DC – Senior Project Team Leader for the renovation and adaptive use of the historic Slowe Hall, 306 single rooms, into a marketrate apartments, providing 101 units.

Tilden Hall, Washington, DC – Senior Project Team Leader for the preservation, restoration and renovation of a historic 76-unit apartment building and the construction of a 5-story, 25-unit residential addition.

850 Sligo Avenue, Silver Spring, MD – Senior Project Team Leader for the addition, renovation, and adaptive reuse of an existing 30,500 SF, 8-story + cellar office tower. With a 6-story + parking addition, the finished work will result in a combined 81,600 SF, 80-unit + retail mixed-use development.

1841 Columbia Road, NW, Washington, DC – Senior Project Team Leader for the renovation in place of an existing historic 119-unit 114,000 SF apartment building and retail store-front.

1921 Kalorama Road, NW, Washington, DC – Senior Project Team Leader for the renovation of an existing, historic 1929, 59-unit, 65,000 SF apartment building.

WY18, NW, Washington, DC – Senior Project Team Leader for a condominium conversion of two historic 1910 apartment buildings with 43-units plus retail. The exterior of each building and the surrounding landscape were carefully restored. The existing apartments were converted to a condominium. Unit interiors and common areas were updated for a contemporary lifestyle in this historic neighborhood.

1360 Peabody Street, NW, Washington, DC – Senior Project Team Leader for the reconstruction of, and renovations to, the fire-damaged existing 53-unit 50,305 SF apartment building.

1430W Street, NW, Washington, DC – Senior Project Team Leader for the renovation of an existing, historic 1908, 36-unit, 32,000 SF apartment building.

The Lafayette Apartments, Arlington, VA – Senior Project Team Leader for Level 1 and Level 2 renovations to existing 341-unit garden style apartment complex.

Fairway Village Senior Housing, St. Charles, MD – Senior Project Team Leader for the new construction of an affordable 144 units, ~151,800 SF new senior housing.

Dominion Arms Apartments, Arlington, VA – Senior Project Team Leader for the historic renovation of a 188 unit, multi-family residential apartment building in Arlington, VA.
