Date: August 24th, 2026

Commissioner Falk:

We are writing in support of the BZA application 21480 for the proposed garage at 1808 Kilbourne Place NW.

Ian & Julia have informed us about the project, including documents submitted to the BZA, the architectural drawings, photos, and the Applicant Statement. I understand Ian & Julia are requesting to replace their current parking pad with a single-story garage and roof deck above. The garage & deck are similar in size & massing with many others along the row and we see no reason to object.

Thank you,
