

1802 Kilbourne PI NW
Washington, DC 20010
August 30, 2026

Jay Falk
ANC 1D01 Commissioner

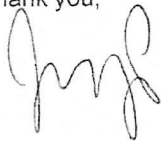

Commissioner Falk:

We are writing in support of BZA application 21480 for the proposed garage at 1808 Kilbourne Place NW.

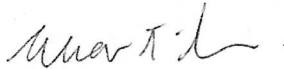

Ian and Julia have informed us about the project, including sharing documents submitted to the BZA such as the architectural drawings, photos, and applicant statement. We understand Ian and Julia are requesting to replace their current parking pad with a single-story garage with a roof deck above.

The proposed garage and deck are similar in size and design to many others along the alley behind the block. We support their making these modifications to their property, which are harmonious with neighboring properties and will increase the usefulness of their property.

Thank you,

Jeremy Cornforth
Owner
