Commissioner Falk:

We are writing in support of the BZA application 21480 for the proposed garage at 1808 Kilbourne Place NW.

Ian and Julia have informed me about this project, including documents submitted to the BZA, the architectural drawings, photos, and the Applicant Statement. I understand Ian and Julia are requesting to replace their current parking pad with a single-story garage and roof deck above.

The garage and deck are similar in size and massing with many others along the row and I see no reason to object.

Thank you,
