

Government of the District of Columbia

Department of Transportation

d. Planning and Sustainability Division

MEMORANDUM

TO: District of Columbia Board of Zoning Adjustment

FROM: *KB* Kelsey Bridges
Neighborhood Planning Branch Manager

DATE: September 11, 2026

SUBJECT: BZA Case No. 21488 - 2146 Wyoming Avenue NW

APPLICATION

Juleanna Glover (the “Applicant”), pursuant to Title 11 of the *District of Columbia Municipal Regulations (DCMR)*, requests a Special Exception from the lot occupancy requirements of Subtitle D § 210.1, rear yard requirements of Subtitle D § 5004.1, and accessory apartment requirements of Subtitle U § 253.8(c) to construct a two-story accessory building that is a garage plus an apartment in the rear of an existing semi-detached three-story plus basement principal row dwelling. The site is in the R-3 Zone at 2146 Wyoming Avenue NW (Square 2528, Lot 201) and is served by a 16-foot public alley.

RECOMMENDATION

The District Department of Transportation (DDOT) has reviewed the application materials and has determined that the proposed action will not have adverse impacts on the District’s transportation network. DDOT has no objection to the approval of the requested relief.

STREETSCAPE AND PUBLIC REALM

DDOT’s lack of objection to this application should not be viewed as an approval of the public realm. All elements of the project proposed within District-owned right-of-way require the Applicant to pursue a public space construction permit.

DDOT expects the adjacent public realm to meet all District standards. The Applicant should refer to Titles 11, 12A, and 24 of the [DCMR](#), the most recent version of DDOT’s [Design and Engineering Manual](#), and the [Public Realm Design Manual](#) for public space regulations and design guidance. A permit application can be filed through the DDOT [Transportation Online Permitting System \(TOPS\) website](#).

HERITAGE AND SPECIAL TREES

According to the District's [Tree Size Estimator map](#), the property has two (2) Special Trees. DDOT expects the Applicant to coordinate with the Ward 2 Arborist regarding the preservation and protection of existing small street trees.

Special Trees are between 44 inches and 99.99 inches in circumference. Special Trees may be removed with a permit. However, if a Special Tree is designated to remain by DDOT's Urban Forestry Division, a Tree Protection Plan (TPP) will be required.
