Hello Jenn Kauffman,

I hope you are doing well. We are applying for both **Area Variance** and **Special Exception relief**. As per the comments received, we are required to provide a **Statement of Public Outreach** for the property located at *314 Delafield PI NW, Washington, DC 20011*.

I am reaching out on behalf of the owner, **Maria Cabieses**, to share the scope and purpose of the project:

**Scope of the Project:**

- Construction of a new third floor measuring approximately 41'-0" x 33'-0".
- First-floor rear addition of 5'-0" x 33'-0".
- Implementation of updated architectural planning along with new Mechanical, Electrical, and Plumbing (MEP) systems for the expanded and reconfigured spaces.

**Purpose of the Project:**

- The property currently consists of two floors with four (4) residential units.
- The proposed construction will add two (2) new residential units on the third floor, increasing the total from four (4) to six (6).
- Expansion and reconfiguration of the first floor will create more efficient and spacious layouts suitable for rental purposes.
- The upgrades will enhance the overall marketability and rental potential of the property by optimizing available space and modernizing the infrastructure.

For your reference, I have attached the project drawings. Please let me know if you need any additional information or documents from us. Also let me know what need to do next, if required

Thank you for your time and guidance.
