

Statement of Intended Use

The house at 4510 Davenport Street, NW has been the primary residence of the property owners, Sarah Horsey and Alfred Barr, for 30 years. The project consists of a small 71 SF addition to the existing house that is comprised of two-story with basement elevator shaft and a one-story ground floor vestibule. They have determined that due to advancing age and related challenges especially for Alfred Barr, they need to install an elevator at their house in order to remain in and enjoy their home for the years ahead.

The project has been reviewed with the directly adjacent neighbors to the west at 4512 Davenport Street, Kira Schwartz and Ethan Sachs who are in support of the proposal. Their letter of support is in the record. They are the only neighbors directly impacted by the proposal.
