Statement of Intended Use

The subject property is currently used as a residential dwelling. I intend to continue using the property solely for residential purposes.

The proposed project consists of the construction of a rear deck measuring approximately 14 feet 8 inches by 6 feet, together with associated stairs, as an accessory improvement to the existing residence. The proposed deck and stairs will provide outdoor residential space and access to the rear yard.

The project will not change the existing residential use of the property.

A handwritten signature in black ink, appearing to read 'Xiomara De Leon Medina'.
