Dear Ms. Noel:

Thank you for the participation of the People's Counsel on Zoning Commission Case No. 01-02 regarding Antenna Regulations. Your input was very helpful to the Commissioners during the deliberation process.

Your submission of November 19, 2002, requesting that the Zoning Commission establish a fund to allow D.C. residents to develop legally sufficient cases before the Commission is an excellent idea. However, the Commission does not have the legal authority to create or administer such a fund. We are, however, exploring funding opportunities to provide the Commission and/or the Board of Zoning Adjustment with the expert technical advice as the need arises.

Thank you again for your participation in this case.

Sincerely,

Carol J. Mittlen
Chairman
