Subject: Petition to Zoning Commission on Miscodification of the 1989 aten nas regs
Importance: High

Dear Chairperson Mitten:

I live at 3607 Van Ness Street, NW, WDC 20008 and am deeply concerned about the need for clear guidelines and standards to regulate the siting of antennas and towers. We need regulations and procedures that make impossible to site towers and antennas without first taking into account neighborhood health hazard, environmental and esthetic concerns. I will not be able to attend the Commission meeting on July 16, but I want to register my strong support for the Cleveland Park Citizens Assoc. petition requesting the Board take up the issue of the miscodification of the 1989 atennas order before it recesses for the summer. We really need to correct the regulations so the BZA and DC courts will clearly know what the regulations are that apply to American Tower should it decide to pursue its legal remedies in the local regulatory and court system. Thank you for your consideration, which I hope will lead to decisive action on the part of the Board at its meeting on July 16. Stephanie Kinney
