Re: Zoning Amendment for Waterside Mall - Case No. 01-35
Correction of Spelling and Grammatical Errors in May 23, 2002 Filing

Dear Sir/Madam:

Yesterday afternoon I filed a written supplement to my May 2, 2002 oral testimony in the above matter together with seven (7) sets of three exhibits, Exhibits "A", "B" and "C." Unfortunately we live in the computer age and rely too much on the machines to be reliable at all times. Yesterday my PC and printer were not.

I am satisfied with the written submission I made yesterday by hand delivering the same to the Commission's offices by 3:00 PM. It says what I wanted to say although it has misspelled words and some grammatical errors.

However, the version of my letter as filed on May 23, 2002 was a copy of the last "saved" version of my letter - saved about 2:00 PM - before my printer and copier decided to crash while I was printing the later proofread version with a few minor changes, including the correction of misspelled words with "Spell Check" and the addition of a header on pages 2-5. I was unable to print out the "proofread version" of my letter before I left my apartment in Southwest about 2:30 PM to hand carry my written submission to the Commission's offices.

Enclosed as a courtesy for the Commissioners, for ease of reading, is the "proofread version" of my letter which was prepared about 2:00 PM and which I was in the process of printing when my computer crashed. Last evening, I was able to print out seven copies of the "proofread version" after I returned home and was able to get my computer and printer to work

properly.

If it is possible, I would appreciate it if you would attach a copy of the enclosed "proofread version" of my letter to copies of the filing I made yesterday to make it easier for the Commissioners to read my letter without the distractions of misspelled words and improper grammar. If it not possible - because today is May 24, 2002 - so be it. Just discard the enclosed copies of the "proofread version" of my letter in that event.

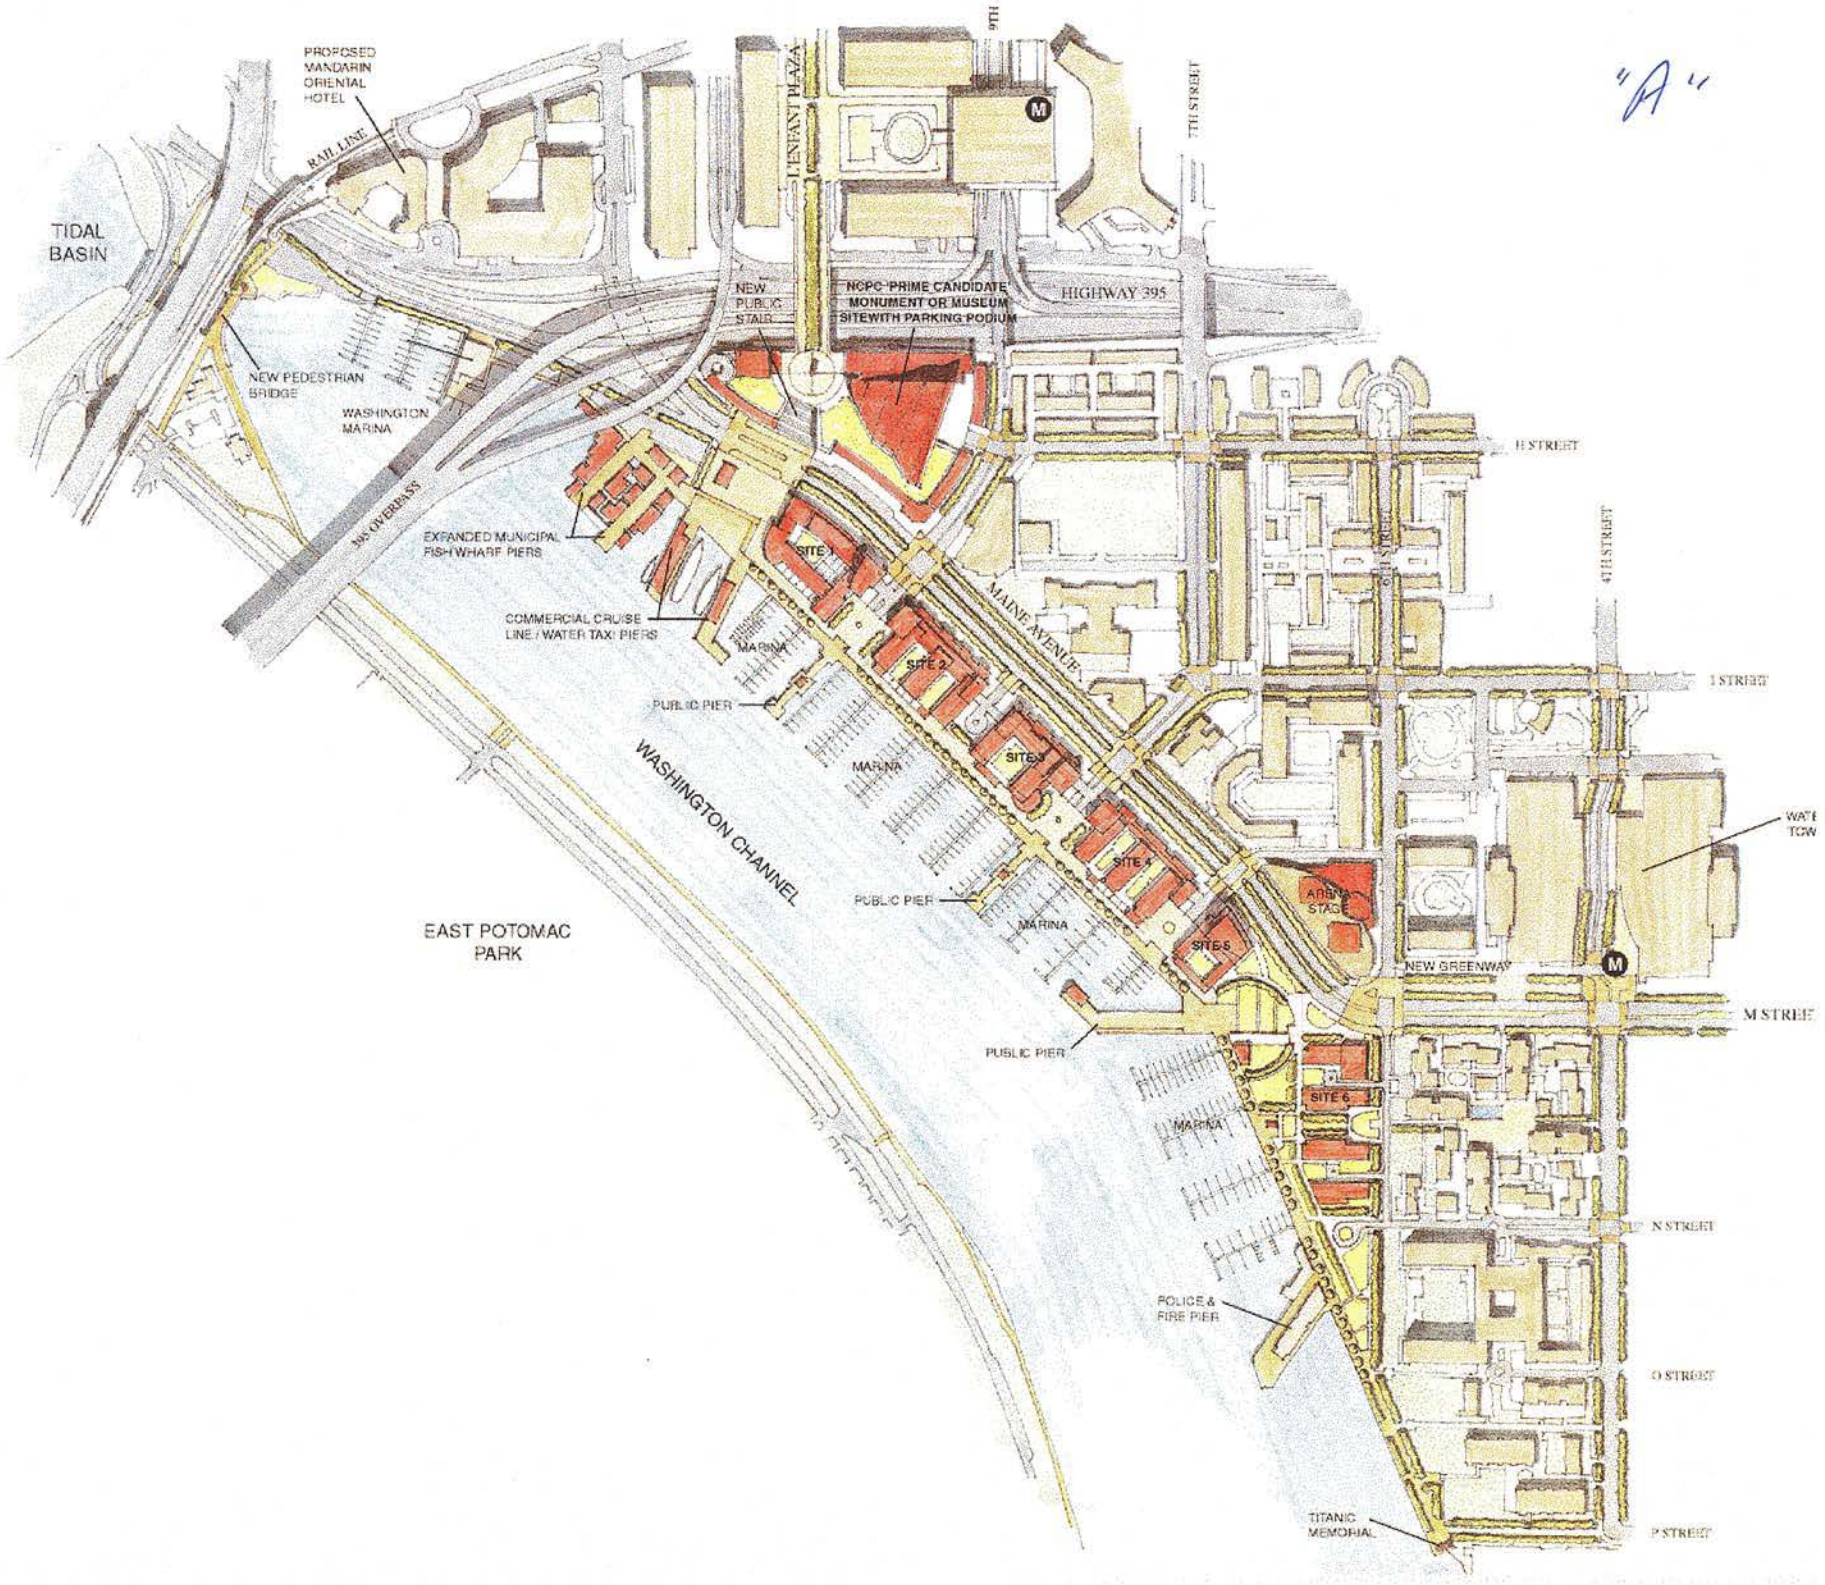

Thank you very much.

With best regards,

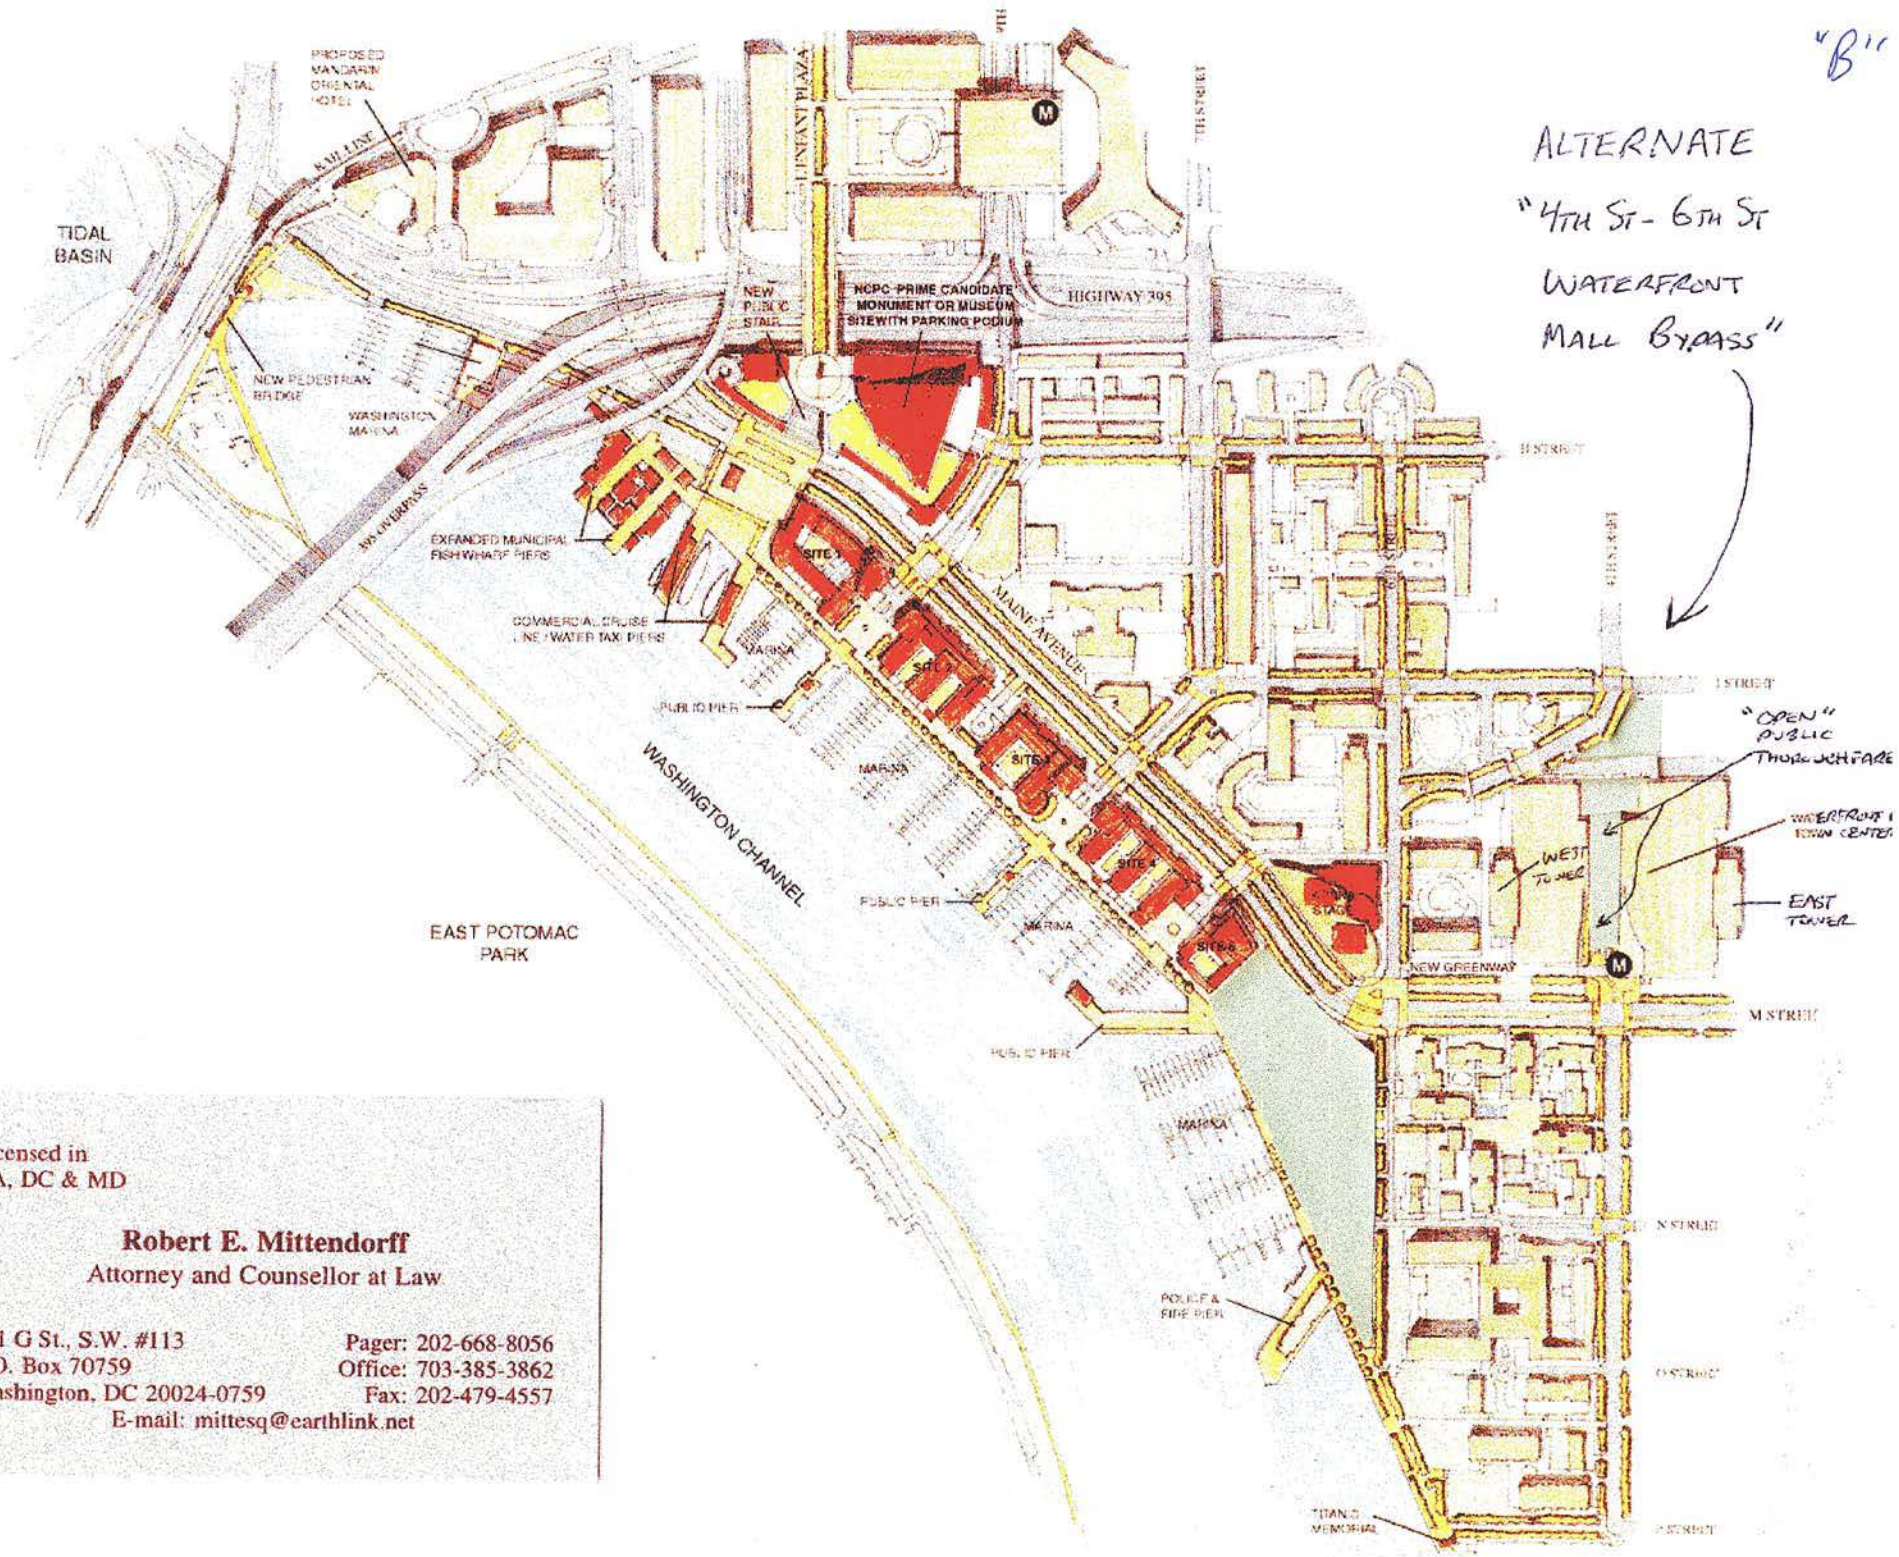

Robert E. Mittendorff
