COMMENTS: SUBMITTED FOR THE RECORD: 02-15TA

I stopped at the OZ to review the record for 02-15A (hearing July 1). As expected, there isn't much there. Few people know about this case.

Several of us from Ward 5 will testify next Monday — all against the text amendment change. We have managed to get copies of the February ZC testimony, the proposed text amendment change, and the OP draft report on this issue — hoping to focus our 3-minute testimony. In addition, we will put into the record, some of what we attached here, general items about the Turkey Thicket recreational facility, which is the test case for the text amendment.

First is an item prepared by 11 neighbors about due diligence. Note, this was prepared in early May before any of us knew about the text amendment or the ZC's involvement. Other documents are some of the documents we have managed to secure by FOIA and other means. All documents by neighbors have been posted to the Brookland E-Group.

I apologize that some of these documents include my editorial comments. My computer has crashed, which is also why I am writing this. I did not expect to share the city-generated documents w/ the ZC and there is insufficient time to secure clean copies.
