Subject: Zoning Commission Case #02-15

We would greatly appreciate your allowing us to submit comments for the record on this case by Friday. Our trustees meet this Thursday. Unfortunately, it is my understanding that the record closes today, and a number of our trustees are out of town. We will need a quorum to take a formal position on this case, and our quorum requires that a majority of trustees be present or reachable by phone.

We are very indebted to the sub-committee chairs who presented testimony on behalf of their sub-committees at the hearing and appreciate their raising issues which would assure the public at large that there is an adequate procedure to review possible park/recreation development and conservation. Obviously, problems relate to a lack of proper definitions, the reality that each proposed development involves differing sites with differing situations, and the fact that there is no overall parks/recreation plan which would review in a systematic way the proper deployment of special projects and the conservation of valuable and important open and green space.

In any event, we would be grateful if you would honor this request. We are hopeful that we can take action on Thursday.

Please advise us if we may send in a submission for the record on Friday.

Thanks for your attention to this matter.
