02-15

GOVERNMENT OF THE DISTRICT OF COLUMBIA
Department of Parks and Recreation

June 21, 2003

Commissioner James Hannaham
DC Office of Zoning
441 Fourth Street, NW
Suite 210 South
Washington, DC 20001

Dear Commissioner Hannaham:

I am writing in reference to the Zoning Commission's Final Hearing, Text Amendment Case held on June 9, 2003.

I have been apprised that it was reported at the meeting that you sought information from the Department of Parks and Recreation on our future projects, to see if maybe more (future) recreation centers might be impacted by the proposed strict standard and you received no response. As the agency director, I am concerned if we are perceived to be unresponsive to the citizenry we serve and if contacted by a Commissioner of the Zoning Commission I am troubled that there was not a response. I would very much appreciate if you could share whom you attempted to contact and when you requested information pertaining to the agency. I deeply appreciate your work and that of your fellow commissioners and hope to expeditiously resolve any concerns the commission might have pertaining to the Department of Parks and Recreation.

Thank you for all you do on behalf of the citizens of the District of Columbia. I look forward to hearing from you.

Sincerely,

Neil O. Albert
Director

BOARD OF ZONING ADJUSTMENT
