family residence, locating the child care facility on the Western Avenue frontage, and adding an affordable housing component, members of the community, both individually and through the Friendship Heights Organization for Reasonable Development (FHORD), strongly oppose the requested zoning change and the proposed 8-story, 78.75 foot high, 182,000 square foot planned unit development, and feel strongly that this proposed development is not consistent with the scale or character of the neighborhood, and that a development allowed under R-5-B zoning, though it would be significantly denser than the surrounding neighborhood, could be consistent with the scale and character of the neighborhood;

WHEREAS, a majority of Commissioners think that this project merits approval, but one of those three Commissioners feels that the ANC position should reflect the sentiment expressed by the neighbors;

Now, therefore, Advisory Neighborhood Commission 3-E hereby OPPOSES Stonebridge Associates 5401, LLC's application.

ANC 3-E approved this resolution by a vote of 3-2 at its monthly public meeting on November 7, 2002. Commissioners present were Jill Diskan, Chris McNamara, Tad DiBiase, Frank Gordon and Leslie Krafft Quynn.
