Re: The Catholic University of America (CUA) New Campus Plan
Community Committee meeting suggestions and recommendations

Dear Mr. Petchik:

The committee unanimously agrees that the following guarantees must prevail and be enforced by the university if the community is to remain secure, safe, and free of disruptive behaviors.

Sufficient on-campus housing for all upper-classmen who desire to live on campus.

Continue to require under-classmen to live on-campus, with limited exception.

The campus plan envisions 900 + undergraduate students with only 300 surplus spaces and the only new dormitory construction is to replace obsolete buildings, forcing surplus students to be dumped on 5A neighborhoods.

Therefore CUA must commit to building enough housing to accommodate all of its students and CUA must guarantee to take full responsibility for all off-campus behavior.

If these two conditions are not written into the campus plan the neighborhood will be severely disrupted.
