Ms. J.R. Kress,
Director
Office of Zoning,
441, 4th Street NW.,
Suite 210,
Washington D.C. 2001.

Dear Ms. Kress,

**Ref: Proposed sale of 'Pacific House' Washington by Nauru Phosphate Royalties (Washington D.C.), Inc to the University of Notre Dame**

I have been provided with a copy of an email communication, which is purported to have been written and transmitted by me. The contents of the email is as follows:-

*"Dear Ms. Kress:*

*Please cancel the filing application for this case. The Trust has not properly consulted with Government on this.*

*Also could you please mail me copies of any information related to this case, as there may be legal implications regarding mis management or fraud.*

*Thankyou.*

*Hon. Remy Namaduk MP"*

This email message was not drafted or sent by me. I totally disassociate myself from this communication and further advise that I am not aware of any matter that could form the basis of the allegations contained in that email.

As far as I am aware, the required procedures with regard to the sale of 'Pacific House' Washington have been complied with and Government approval for the sale has been properly obtained through Cabinet. I am extremely concerned at the use of my name and office with regard to this communication and will have the matter investigated as far as is possible to establish its source.

Dear Ms. Kress,

**Ref: Email dated Saturday 28th September 2002 purported to have been sent by Hon. Remy Namaduk M.P.**

We refer to the email purported to have been written and submitted by the then Acting President Hon. Remy Namaduk, a copy of which was forwarded by Steven Teitelbaum to Bruce Casey.

This is to confirm that this email is a hoax and is to be disregarded.

I spoke this morning to Hon. Remy Namaduk who completely disassociated himself from this email and expressed serious concern with regard to his name and details being used in this manner. I have been directed to seek the identity of the originator of the mail to enable appropriate action to be taken.

Meanwhile, I trust that the matters concerning the zoning issues can now proceed to finalization as soon as possible.

Yours sincerely,
**Nauru Phosphate Royalties (Washington D.C.), Inc**
