Dear Ms. Kress,

As pastor of Western Presbyterian Church, I write in support of The George Washington University's application to increase the usage and hours of operation of the Health and Wellness Center, located across the street from our church. The Health and Wellness Center has been a wonderful addition to our community. The only problem is that more people should be able to use it! If usage is expanded, it will be especially advantageous for the approximately 1000 Foggy Bottom residents who will be eligible to become members of the Center at an extremely low rate ($295 per year compared to most health clubs that cost at least $720 per year). I can think of no reason why a reasonable person would oppose this application.

Sincerely,

John W. Wimberly, Jr.
Pastor
