Re: Zoning Case # 02-26
December 2, 2002
GWU Health and Wellness Center

Dear Ms. Kress:

I own and have lived in a town house at the above address which is just a few blocks from the George Washington University Health and Wellness Center. I have seen many changes in our Foggy Bottom neighborhood — some good and some not so good — and I am confident that this would be a good one. GW is a good neighbor and I believe that to be part of the reason that it is a desirable place to live. This is just another great effort on their part to include residents in their programs and enjoy being a part of the community.

As a nearby property owner, I have examined the plans and feel they will benefit not just the immediate neighborhood but the entire historic Foggy Bottom District. I firmly believe that broadening the application before you by increasing hours of use and allowing Foggy Bottom and West End residents access to the facility would be of great benefit to students and residents of the area. I therefore recommend that you and your committee act favorably and approve this application.

If you have questions concerning the intent of this letter, or if I can be of further help, please do not hesitate to contact me directly by telephone.

Sincerely,

/s/

J. C. Patterson

RE: Zoning Commission Case No. 02-26

Dear Ms. Kress,

The recent proposal concerning the George Washington University being able to keep its new Health and Wellness center, located at the corner of 23rd and G Streets open till 1am is an important one. In talking with constituents and through personal experiences in going to the GW Health and Wellness Center I feel that keeping the building open till 1am on most nights and increasing its usage will enhance members of the Foggy Bottom Community's way of life. By keeping the facility open later, many member of the community like myself who often are forced to work late will have the ability to exercise in a safe and clean environment. Through extending its hours, the facility will also be able to offer students and members of the community a positive late night activity that they are currently not offered anywhere else. As the commissioner elect for ANC 2A-06 I support the George Washington University's application to increase the hours and usage of their Health and Wellness Center.

Thank you for your time,

Joshua Singer
