Re: Case #02-26
George Washington University/Lerner Health and Wellness Center

Dear Commissioners:

As a resident of Foggy Bottom, I am opposed to expanding the hours of operation of the Wellness Center until one am, six nights a week. We are already inundated with noise from this over populated university in the midst of our endangered residential community.

To those of us who reside near the Wellness Center, at the very edge of the campus, the potential disruptions these late night openings would pose is especially worrisome. I ask that this Commission work to protect the taxpaying and, sadly abused, permanent residents of Foggy Bottom.

Thank you.

Sincerely,

D. Gustafson

Dawn Gustafson
