Office of Zoning
Room 210 South
441 4th Street, NW
Washington, D.C. 20001

To Whom It May Concern:

I am a member of the Chesapeake and Ohio Canal Association and am writing to express my concern about the requested change in zoning that would permit the building of a large boathouse by Georgetown University. Such a large structure as is proposed would block the scenic view in the area, including Key Bridge and would not be in keeping with the beauty of the area around the historic C&O Canal. Please do not approve any change in zoning that would permit the erection of such an imposing unsightly structure.

Sincerely yours,

Ronald E. Howard

Ronald E. Howard
