CASE # 02-30

Office of Zoning
Room 210 South
441 4th St. NW
Washington, DC 20001

Dear Zoning Office:

This letter concerns the proposed Georgetown University boathouse. I'm writing as someone who enjoys paddling on the Potomac, walking and biking the canal as also volunteers as a mule skinner and canal boat operator for the Park Service. I have no objection to adding another boathouse to the Potomac shoreline. In fact a row of boat houses could be a very welcome sight. However, I do object to the size and scale of the proposed new boat house. Please approve a much scaled down building for the University, so they can be viewed as good neighbors to the Canal and the Potomac.

Thank you,

Ronald W. Wilson
