Dear Ms. Mitten:

We are writing to oppose Georgetown University's proposal to build a boat house on the Potomac upstream from Key Bridge. We would hate to see the loss of green space and are particularly concerned about the size of the proposed structure.

Most Sundays, except during the winter, we rent kayaks at Jack's Boathouse and head out on the River. It is one of the rich pleasures of living in Washington. The boat house would diminish the experience for us and all the many other people who think that stretch of water is an urban treasure.

Thank you for considering our views.

Sincerely,

David Brewster
