Re; Public Parkland for Georgetown U Boat House

Dear Zoning Commissioner Mitten,

Please DO NOT approve the Georgetown U request for parkland swapping and construction of their massive building in an area that belongs to all.

This park site being proposed for privledged private use is a historic public area that has welcomed generations of Washingtonians & others of this region. The site beacons all to come & enjoy the park offerings of water, foot, bike leisure activities.

This site should not be dominated & used for private interests; by a few.

Thankyou
Linda Nishioka
