Re: Case No. 02-38

Dear Ms. Kress,

This letter is in support of the new development and construction of Waterfront Mall formerly Waterside Mall.

I have lived in southwest for over 33 years and have been actively participating in my community for almost that entire time. I have heard many plans for "the revitalization of Southwest". I must say that I am truly impressed with these Waterfront PUD plans. Office workers during the day and residential units which create night-life, I find this combination to be very exciting. And the fact that 4th Street will be re-opened completes the great plan.

It is my hope that you do everything you can to ensure speedy passage of the building heights. I want to see a speedy rebirth of our neighborhood.

Sincerely,

Carole G. Early
