Subject: Zoning Case 02-381

To the Zoning Commission:

Please withhold a final determination on this PUD until the promised DDOT Safety Plan for the intersection of Fourth and M, Streets, SW is completed! We have lived in this neighborhood for more than 30 years and have seen traffic congestion mount every year. The intersection at 4th and M Streets, SW is a risky place to be for pedestrians. Cars routinely disobey the no left turn signal. Now we even see instances of EMS vehicles stranded in traffic, even though their lights are flashing and sirens blaring. The pending construction of buildings on either side of 4th Street at M will no doubt add to the situation. What would happen if we would need an ambulance and the traffic was so congested that it couldn't get through?

Please exercise your civic responsibility and ensure the Safety Plan is completed and implemented before you consider going ahead with the Zoning Case 02-381.

Robert C. and Susanne R. Morris
