Hello David and ANC6D,

WFT's only comment in response to the documents delivered to us last week, including the current PUD, references a small discrepancy between the MOA language and the rendering on PUD page 88. Item 5 in the MOA states the vertical wall plantings would apply to "...brick walls along east and north facades at the northeast corner...". Page 88 in the PUD, which accompanied the Applicant's post-hearing submission delivered to WFT last week, excludes this treatment on the north facade in this area. I could believe this was an unintentional omission from PUD renderings, but I wanted to bring this to the attention of the Applicant, ANC6D and the Zoning Commission to ensure the final application matches the MOA language.

I will submit a copy of this email to the IZIS system as our official response submission.

Regards,
Leigha Gooding
