March 10, 2003

Chairman Carol Mitten
Zoning Commission
District of Columbia
441 4th St., N.W.
Washington, D.C. 20001

Dear Chairman Mitten:

We strongly oppose any new zoning designation that would open the way to the construction of a large boat house and other facilities upstream of the Key Bridge.

Our understanding is that Georgetown University seeks such a new designation in order to build a facility that would have an adverse impact on the riverfront area, including the nearby C & O Canal towpath and Capital Crescent Trail.

We hope you and the commission will reject the proposed change.

Sincerely,

Ann B. Bray

Howard Bray
