Ref.: Case No. 03-01

Dear Carol Mitten:

I am pleased to advise you and the other Zoning Commissioners that, in its March 27, 2003 public meeting, the Advisory Neighborhood Commission 4B resolved to support the proposed change in zoning classifications, from C-M-1 to C-2-A, proposed in your Case No. 03-01, Rezoning of Industrial Property.

We understand that this proposed rezoning affects lots bounded by Blair Road, NW (west); Chestnut Street, NW (north); and Spring Place, NW (south and east) in Takoma DC. The ANC 4B Commission views this zoning change – from the current "low bulk commercial/light manufacturing" to the proposed "development of a mixed use neighborhood, including apartments, townhouses and retail and office uses" -- as positive.

On behalf of the nine Commissioners listed below, I am sincerely yours,

Jeffrey Tignor, Chair
ANC 4B Commission
