Re: Case No. 03-27 (Consolidated PUD and Map Amendment)
Babe's Billiards Site - 4600 - 4614 Wisconsin Avenue, N.W.

Dear Ms. Mitten:

We live at 4519 Chesapeake Street, NW and have participated in the ongoing community discussion regarding the redevelopment of 4600 Wisconsin Avenue. We support the Applicant's plan to redevelop this site into a mixed-use, primarily residential building that is 65 feet tall. This project will replace the current uses on the property that include a pool hall, a dry cleaners and a small office building.

We also support the required map amendment rezoning the property in question to C-2-B. We support this rezoning based upon the understanding that the development plan will be subject to a Planned Unit Development (PUD), ensuring all parties of the specifics related to the development.

Our support for this project is based on these key features:

- Approximately 43 condominium units, with three affordable units;
- Ground floor neighborhood-serving retail along Wisconsin Avenue (approximately 4,500 square feet); and
- Approximately 45 parking spaces accessed from Brandywine Street.

The PUD application includes the following amenities that we consider to be of significant public benefit to the local community:

- Janney Elementary School - $75,000 + - For the replacement of the wooden play equipment on the lower playground and additional play equipment for the older students. This contribution will also include necessary stormwater management and soil erosion measures.
- Tenleytown Branch of the D.C. Public Library - $25,000 - For the purchase and or maintenance of information technology ("IT") resources.
- Wilson Senior High School - $20,000 - For necessary repairs to the school buildings, including repainting of the Cupola.
- Friends of Ft. Bayard Park - $15,000 - A contribution will be made to the Friends of Ft. Bayard Park to help fund the renovation/rehabilitation of Ft. Bayard Park, as approved by the National Park Service.

The property is located in the mixed-use, moderate density commercial/medium density residential land use category of the D.C. Comprehensive Plan. In addition, the property is located in the Tenleytown Metrorail Housing Opportunity Area. The proposed project is consistent with numerous goals and policies of the D.C. Comprehensive Plan:

- Encouraging the production of infill housing (with affordable housing units) and mixed-use developments near Metrorail stations;

ZONING COMMISSION
District of Columbia
Case 03-27

ZONING COMMISSION
District of Columbia
CASE NO.03-27
EXHIBIT NO.20

- Encouraging in-fill development that is complementary to the established character of the Tenleytown area and will help stabilize the Tenleytown Area through the creation of additional housing opportunities and enhanced retail opportunities; and
- Encouraging the construction of transit-oriented developments that help maximize the District of Columbia's investment in the Metro system.

We appreciate the significant changes that the Applicant has made to the original plan in order to respect the concerns of some members of the community. In a diverse community such as ours, it is challenging to create a plan that will satisfy all parties, although the Applicant has made a commendable effort to do this. We believe the current plan will be an asset to the neighborhood. It will significantly improve the pedestrian experience through high-quality architecture and excellent landscape design. It will activate the streetscape with neighborhood-serving retail and additional residents living in close proximity to Metro. It will provide a few greatly needed affordable residences and will add variety to the housing stock in Tenleytown.

Thank you for your consideration of our support and for ensuring prudent planning for our community.

Sincerely,

Allison Barnard Feeney
