Re: ***American Pharmacists Association Application for Planned Unit Development (PUD) and Map Amendment, ZC Case No. 04-01***

Dear Mrs. Mitten and fellow Commissioners:

I am Dorothy Miller, Advisory Neighborhood Commissioner for Single Member District (SMD) 2A-05 and Chair of ANC-2A. The above project is located in ANC-2A05, but the Commission has voted that tonight I speak for ANC-2A.

The applicant for the above titled project appeared, before the Commission on May 19, 2004, at a regularly scheduled and properly noticed public meeting and with a quorum present, made a presentation of the changes that had been requested by the Historic Preservation Review Board and the Commission of Fine Arts, which had received approval of both agencies. The ANC liked the changes and unanimously approved Resolution #04-5B, copy attached.

It should be made clear that this is the association for maintaining the quality of training and standards of the pharmacist of this country. With the security alert for the possibility of biological threat to this country now and in the future, it is essential that the group that shoulders this responsibility be given all the help and assistance necessary to meet the need.

In addition, some members of ANC-2A made a tour of the current quarters. The mish-mash mess to the north on "C" Street created by the State Department has long been a sore point with the residents. This is the street that runs between APA and the State Department. What APA is requesting is a positive improvement for this area.

The members of this Commission must be aware that it is out of character for ANC-2A to testify in favor of development. Because the State Department is planning changes to "C" street and the Institute for Peace is moving through the system to be built across 23rd Street, and the traffic changes currently planned for the Lincoln Memorial at 23rd Street, my next request is even more out of character, ANC-2A would like to request that this project be approved by a "bench decision". Thank you.
