Liam is a graduate of Landscape Architecture from the University of Western Australia having attained First Class Honors. He has over 15 years experience working in Perth, Sydney, Melbourne and Washington DC. Liam is passionate about the intricacies of the social and ecological systems that make up our environment and how we relate to and interact with the landscape. Liam has exemplary graphic and analytical skills and has expertise in concept design and design development utilizing physical model making and 3D computer visualization to explore and test ideas at every scale of design.
