Re: Zoning Commission PUD Application No. 04-30
For Premises 1641 Kalorama Road, NW
"The Citadel"

Dear Members of the Commission:

As the Single Member District representative of the area where this application is sited, I am writing to express my support for the Commission's setting down the application for public hearing.

The Advisory Neighborhood Commission as a whole is looking forward to considering this application after it has been set down by the Zoning Commission for a public hearing. I believe, after review of the Application, that it has sufficient merit for set down and holding of a public hearing.

Please note that my support for this set down does not constitute support or opposition for the final project by myself of the full ANC. I simply feel that sufficient conversation has taken place in the community to merit moving to the next step in the process, namely, the holding of a full public hearing.

The revitalization and reuse of the Citadel building is important to the Reed-Cooke neighborhood and we look forward to your favorable set down action and the ANC's participation in the upcoming public hearing.

Sincerely,

Josh Gibson
Advisory Neighborhood Commissioner, 1C07
