

YES IN MY BACKYARD!

Our Community Needs Mandatory Inclusionary Zoning

Housing costs in DC have skyrocketed and the supply of affordable housing is shrinking, making it more difficult for ordinary citizens to continue living in their neighborhoods. Rising costs and new developments continue to displace residents from their homes, concentrating wealth in some parts of the city and poverty in others.

Mandatory Inclusionary Zoning can help moderate-income employees, such as teachers, nurses, firefighters, service workers and many other working families and individuals, to continue living in the DC neighborhoods they serve and support.

I believe there is great value and opportunity in living in an economically and culturally diverse community. Therefore, I urge the Zoning Commission to apply Mandatory Inclusionary Zoning in my neighborhood and widely throughout the District of Columbia.

Housing costs in DC have skyrocketed and the supply of affordable housing is shrinking, making it more difficult for ordinary citizens to continue living in their neighborhoods. Rising costs and new developments continue to displace residents from their homes, concentrating wealth in some parts of the city and poverty in others.

Mandatory Inclusionary Zoning can help moderate-income employees, such as teachers, nurses, firefighters, service workers and many other working families and individuals, to continue living in the DC neighborhoods they serve and support.

I believe there is great value and opportunity in living in an economically and culturally diverse community. Therefore, I urge the Zoning Commission to apply Mandatory Inclusionary Zoning in my neighborhood and widely throughout the District of Columbia.

I believe there is great value and opportunity in living in an economically and culturally diverse community. Therefore, I urge the Zoning Commission to apply Mandatory Inclusionary Zoning in my neighborhood and widely throughout the District of Columbia.

Housing costs in DC have skyrocketed and the supply of affordable housing is shrinking, making it more difficult for ordinary citizens to continue living in their neighborhoods. Rising costs and new developments continue to displace residents from their homes, concentrating wealth in some parts of the city and poverty in others.

Our Community Needs Mandatory Inclusionary Zoning

Our Community Needs Mandatory Inclusionary Zoning

Housing costs in DC have skyrocketed and the supply of affordable housing is shrinking, making it more difficult for ordinary citizens to continue living in their neighborhoods. Rising costs and new developments continue to displace residents from their homes, concentrating wealth in some parts of the city and poverty in others.

Mandatory Inclusionary Zoning can help moderate-income employees, such as teachers, nurses, firefighters, service workers and many other working families and individuals, to continue living in the DC neighborhoods they serve and support.

I believe there is great value and opportunity in living in an economically and culturally diverse community. Therefore, I urge the Zoning Commission to apply Mandatory Inclusionary Zoning in my neighborhood and widely throughout the District of Columbia.

YES IN MY BACKYARD!

Our Community Needs Mandatory Inclusionary Zoning

Housing costs in DC have skyrocketed and the supply of affordable housing is shrinking, making it more difficult for ordinary citizens to continue living in their neighborhoods. Rising costs and new developments continue to displace residents from their homes, concentrating wealth in some parts of the city and poverty in others.

Mandatory Inclusionary Zoning can help moderate-income employees, such as teachers, nurses, firefighters, service workers and many other working families and individuals, to continue living in the DC neighborhoods they serve and support.

I believe there is great value and opportunity in living in an economically and culturally diverse community. Therefore, I urge the Zoning Commission to apply Mandatory Inclusionary Zoning in my neighborhood and widely throughout the District of Columbia.

Housing costs in DC have skyrocketed and the supply of affordable housing is shrinking, making it more difficult for ordinary citizens to continue living in their neighborhoods. Rising costs and new developments continue to displace residents from their homes, concentrating wealth in some parts of the city and poverty in others.

Mandatory Inclusionary Zoning can help moderate-income employees, such as teachers, nurses, firefighters, service workers and many other working families and individuals, to continue living in the DC neighborhoods they serve and support.

I believe there is great value and opportunity in living in an economically and culturally diverse community. Therefore, I urge the Zoning Commission to apply Mandatory Inclusionary Zoning in my neighborhood and widely throughout the District of Columbia.

YES IN MY BACKYARD!

Our Community Needs Mandatory Inclusionary Zoning

Housing costs in DC have skyrocketed and the supply of affordable housing is shrinking, making it more difficult for ordinary citizens to continue living in their neighborhoods. Rising costs and new developments continue to displace residents from their homes, concentrating wealth in some parts of the city and poverty in others.

Mandatory Inclusionary Zoning can help moderate-income employees, such as teachers, nurses, firefighters, service workers and many other working families and individuals, to continue living in the DC neighborhoods they serve and support.

I believe there is great value and opportunity in living in an economically and culturally diverse community. Therefore, I urge the Zoning Commission to apply Mandatory Inclusionary Zoning in my neighborhood and widely throughout the District of Columbia.

Housing costs in DC have skyrocketed and the supply of affordable housing is shrinking, making it more difficult for ordinary citizens to continue living in their neighborhoods. Rising costs and new developments continue to displace residents from their homes, concentrating wealth in some parts of the city and poverty in others.

Mandatory Inclusionary Zoning can help moderate-income employees, such as teachers, nurses, firefighters, service workers and many other working families and individuals, to continue living in the DC neighborhoods they serve and support. I believe there is great value and opportunity in living in an economically and culturally diverse community. Therefore, I urge the Zoning Commission to apply Mandatory Inclusionary Zoning in my neighborhood and widely throughout the District of Columbia.

I believe there is great value and opportunity in living in an economically and culturally diverse community. Therefore, I urge the Zoning Commission to apply Mandatory Inclusionary Zoning in my neighborhood and widely throughout the District of Columbia.

Mandatory Inclusionary Zoning can help moderate-income employees, such as teachers, nurses, firefighters, service workers and many other working families and individuals, to continue living in the DC neighborhoods they serve and support.

Housing costs in DC have skyrocketed and the supply of affordable housing is shrinking, making it more difficult for ordinary citizens to continue living in their neighborhoods. Rising costs and new developments continue to displace residents from their homes, concentrating wealth in some parts of the city and poverty in others.

Our Community Needs Mandatory Inclusionary Zoning

Housing costs in DC have skyrocketed and the supply of affordable housing is shrinking, making it more difficult for ordinary citizens to continue living in their neighborhoods. Rising costs and new developments continue to displace residents from their homes, concentrating wealth in some parts of the city and poverty in others.

YES IN MY BACKYARD!

Our Community Needs Mandatory Inclusionary Zoning

Housing costs in DC have skyrocketed and the supply of affordable housing is shrinking, making it more difficult for ordinary citizens to continue living in their neighborhoods. Rising costs and new developments continue to displace residents from their homes, concentrating wealth in some parts of the city and poverty in others.

Mandatory Inclusionary Zoning can help moderate-income employees, such as teachers, nurses, firefighters, service workers and many other working families and individuals, to continue living in the DC neighborhoods they serve and support.

I believe there is great value and opportunity in living in an economically and culturally diverse community. Therefore, I urge the Zoning Commission to apply Mandatory Inclusionary Zoning in my neighborhood and widely throughout the District of Columbia.

YES IN MY BACKYARD!

Our Community Needs Mandatory Inclusionary Zoning

Housing costs in DC have skyrocketed and the supply of affordable housing is shrinking, making it more difficult for ordinary citizens to continue living in their neighborhoods. Rising costs and new developments continue to displace residents from their homes, concentrating wealth in some parts of the city and poverty in others.

Mandatory Inclusionary Zoning can help moderate-income employees, such as teachers, nurses, firefighters, service workers and many other working families and individuals, to continue living in the DC neighborhoods they serve and support.

I believe there is great value and opportunity in living in an economically and culturally diverse community. Therefore, I urge the Zoning Commission to apply Mandatory Inclusionary Zoning in my neighborhood and widely throughout the District of Columbia.
