MEMORANDUM

To: **Zoning Commission of the District of Columbia**

From: **Marie Sansone** MS
Interim Senior Deputy Director

Date: **June 15, 2005**

Re: **Z.C. Case No. 04-34**
Text Amendment to Allow the Use of Pervious Paving for Certain Parking and Related Facilities

---

The Department of Health, Environmental Health Administration (EHA), along with the District's Department of Transportation, provided advice to the Zoning Advisory Committee (ZAC) on the proposed amendments to the Zoning Regulations to allow and encourage the use of pervious paving for certain parking and related facilities.

We believe that the proposed amendments would have a beneficial effect on water quality and groundwater recharge The use of pervious materials, when installed correctly with adequate measures to protect groundwater from contamination from oil and other auto drippings, would help to slow water runoff and prevent pollution

EHA therefore strongly supports the proposed rulemaking.

cc: Hamid Karimi, Program Manager
EHA Watershed Protection Division
