RE: Zoning Case No. 04-35; The Salvation Army Community Center

Dear Ms. Mitten:

The need for an organization that will aid in community development while providing services that will strengthen the minds, bodies and spirits of the residents within this commission is always welcomed. The Salvation Army has provided just that. Their unwavering community support through programs such as child care; conference/worship; retail facilities; social services; workforce development; health-wellness will uplift this community in numerous ways. The most important is by serving as a community action agency providing the necessary services and resources to the citizen of Ward 8.

Please be advised that at our regularly scheduled, public noticed meeting on February 1, 2005 with a full a quorum present, ANC 8A, unanimously voted to support the application of the Salvation Army East of the River Corps Community Center at Morris Road and Martin Luther King, Jr. Avenue SE. This faculty is critical to the well being and growing of the east of the river neighborhoods and incorporates all best of community involvement and community planning in bringing to fruition a community project.

Accordingly, we respectfully request that our support of this application be accorded great weight, as provided in Section 1-309.10 of the District of Columbia Code.

Sincerely,

Anthony Muhammad
Chair
