RE: ZC Application #05-11, George Washington University, for Further Processing Pursuant to the Campus Plan to Permit the Renovation and Addition to an Existing University Building to be Used as a Food Service Venue at 2036 G Street, NW, in Square 103

Dear Chairperson Mitten:

At its regularly scheduled meeting on April 20, 2005, the Foggy Bottom and West End Advisory Neighborhood Commission (Commission or ANC 2A) considered Zoning Commission Application #05-11, by George Washington University, for further processing pursuant to the Campus Plan to permit the renovation and addition to an existing university building to be used as a food service venue at 2036 G Street, NW, in Square 103. With six of six commissioners in attendance, a quorum at a duly called public meeting, the following motion was unanimously approved:

> The Foggy Bottom and West End Advisory Neighborhood Commission supports Zoning Commission Application #05-11, by George Washington University, for further processing pursuant to the Campus Plan to permit the renovation and addition to an existing university building to be used as a food service venue at 2036 G Street, NW, in Square 103, contingent upon the removal of nine tables and eighteen seats from the public space adjacent to the proposed addition and the retention of such space as green space.

The Commission does not object to the conversion of the "Quigley's Pharmacy Building" to food service use, an original accessory use. ANC 2A does object, however, to the size of the sidewalk café as depicted on the site plan presented at the Commission's meeting on April 20, 2005. The Commission's support on this matter in conditioned upon the removal of the nine tables and eighteen seats depicted on the site plan adjacent to the proposed addition to this facility and the conversion of this area to green space. The Commission respectfully requests that this condition be placed in the final order of the Zoning Commission on this matter. If this condition is not accepted and noted in the Zoning Commission Order, then ANC 2A shall be in opposition to the application.

I will serve as the Commission's representative on this matter. Please feel free to contact me on (202) 607-8429 or by email at anc2a@earthlink.net for additional information.

ON BEHALF OF THE COMMISSION:

Sincerely,

Vince Micone
Chairperson
