DC Zoning Commission

441-4th Street, NW 200S

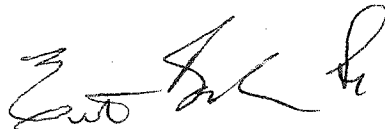

Washington DC 20001

RE-Case Numbers 05-28-b

And 05-28-c

As a resident and home owner of Ward Seven; I would like to voice my opposition to the building plans of the Lano Coporation/ City Interests/DCPCA developers, as it relates to the previously agreed upon PUD dated 2/27/06, for the Parkside development. I am requesting that you deny any and all requests for time extensions, PUD stages, modifications, and anything else pertinent to this project. In addition, I am requesting that you only reconsider their requests, after the developers can demonstrate, that they have made every effort to have and hold public hearings and meetings, in all the affected communities. All affected communities should be apprised of the proposed changes and reasons why, and be allowed to lend their voices to any changes, since it affects our community. I further want to add, that I am a proponent of the original PUD and want any changes to reflect the betterment and not the detriment, of my community.

Thanking you in advance

Ernest Baylor Sr. (202-388-1733)
