

April 18, 2011

Anthony J. Hood, Chairman
District of Columbia Zoning Commission
441 4th Street, N.W., Suite 200
Washington, DC 20001

Dear Mr. Hood:

RE: Zoning Case No. 05-28B and No. 05-28E

This letter is to advise the District of Columbia Zoning Commission that I,

Olivia Washington
Print Name

fully support the DC Primary Care Association's (DCPCA) PUD Application to the D.C. Zoning Commission for the following:

- Final approval of a Planned Unit Development and Zoning Map Amendment (Zoning Case No 05-28B)
- Corresponding Modification to an Approved First Stage Planned Unit Development (Zoning Case No 05-28E)

As a resident of the Parkside Community, I understand the importance of providing quality health care in my neighborhood, an area that the federal government has designated as a Health Professional Shortage Area. As reports have revealed, the health indicators for Ward 7 show a population at risk. Among adults, residents of Wards 7 and 8 had generally higher rates of chronic disease, poor health status, and premature mortality than in other areas of the city.

DCPCA has an extraordinary track record of developing health centers in other wards. To date, they have completed 8 renovations and expansions across the city, and have another one in construction in Ward 8. As a resident of this community, I ask that the Zoning Commission approve this application so that Ward 7 can have its own new, state-of-the-art primary health care facility

Sincerely,

Olivia Washington

Washington, DC 20001

Dear Mr. Hood:

RE: Zoning Case No. 05-28B and No. 05-28E

This letter is to advise the District of Columbia Zoning Commission that I,

Alyse Hart
Print Name

fully support the DC Primary Care Association's (DCPCA) PUD Application to the D.C. Zoning Commission for the following:

- Final approval of a Planned Unit Development and Zoning Map Amendment (Zoning Case No 05-28B)
- Corresponding Modification to an Approved First Stage Planned Unit Development (Zoning Case No 05-28E)

As a resident of the Parkside Community, I understand the importance of providing quality health care in my neighborhood, an area that the federal government has designated as a Health Professional Shortage Area. As reports have revealed, the health indicators for Ward 7 show a population at risk. Among adults, residents of Wards 7 and 8 had generally higher rates of chronic disease, poor health status, and premature mortality than in other areas of the city.

DCPCA has an extraordinary track record of developing health centers in other wards. To date, they have completed 8 renovations and expansions across the city, and have another one in construction in Ward 8. As a resident of this community, I ask that the Zoning Commission approve this application so that Ward 7 can have its own new, state-of-the-art primary health care facility

Sincerely,

Alyse Hart
