Re: Case 06-01 Stuart Development/Third Street Project

Dear Mr&Mrs Chairman and Fellow Commissioners:

I write on behalf of the Residents and Property Owners on Square 776 concerning this above proposed project development and alley closing.

We the residents and property owners of Square 776 strongly opposed this project and how it's apparently being ram through right in our faces and our backyards.

We humbly ask for your wise deliberations and sense of fairness for citizens rights (since you are citizens too) in helping us oppose this project as presented.

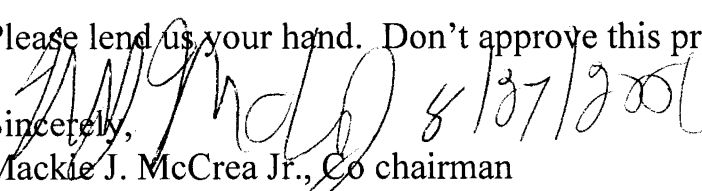

The developer has not felt it necessary to talk to us, The Office Of Planning apparently ignored our legitimate concerns.

We ask you, in your heart of hearts to do the right thing. Make this developer come back to the table.

Don't approve this project as it stands. Don't recommend for them to close or reconfigure our public alley ways.

We also ask you to review these photo's so you can see the callus nature in which this developer has dealt with this community over six years. He also has the audacity to suggest that he was not involved in this, despite the fact that he has always own the land on this lot and ran the run down gas station for over 40 years!

Please lend us your hand. Don't approve this project. We beg of you!

Sincerely,

Mackie J. McCrea Jr., Co chairman
Square 776
