Mr. Crews,

I am contacting you about the status of your review for the Appletree School, located at **138 12th Street, NE, DC File # 3758-A**. We spoke on Friday, March 30 and you told me you expected to have comments ready the following Monday. I realize you were then out for nearly the entire week to follow. Unfortunately, during that time the application was not with the plans and could not be located by DCRA. We were unable to review the current comments or move the job to Structural for first review.

I have tried to contact you several times this week. As you can see from the attached PDF, Electrical, Fire, and Mech/Plumb reviews were all completed four weeks ago. Since that time we believe Elevator has approved the job as well(though not confirmed), but we have not received your comments or had Structural review the job. The job was filed 2/9/06, over 2 months ago.

If possible, myself, the architect, contractor, and owner are willing to meet with you to discuss all issues and concerns. Please contact me if you need anything else to complete your review so we can move this process along. Thank you for your assistance.
