Re: Z.C. Case No. 06-11L: Hillel at the George Washington University Letter of Support

Dear Chairperson Hood and Members of the Commission:

I am writing to express my support for Hillel at The George Washington University's proposed new building.

In my four years at GW (2004-2008) I was an active member of Hillel, and saw firsthand the positive impact that the organization had on the surrounding community. From hosting open cultural events for the community, such as lectures and film screenings, to having an open-door policy whereby students and community members could utilize the space for meetings et al, Hillel provided and continues to provide many services that benefit the GW and Foggy Bottom communities. In addition, I also support the plan to have space within the new Hillel building for GW academic and student life interests. Not only would this lead to better community relations, it is also vital to Hillel's success as the organization needs GW's partnership in order to afford the construction of the new building.

I thank you very much for taking my comments into consideration, and I beseech the Commission to approve the relief required to construct the new GW Hillel building.

With deep respect,

Joshua Suchoff
