

William K. Hellmuth, AIA

President / Director of Design

Education Princeton University
Master of Architecture, 1977

University of Virginia
Bachelor of Architecture, 1975

Registration NY, DC MD, VA

Memberships American Institute of Architects

Affiliations GSA Design Excellence Peer

Responsibilities As President of HOK and Design Director of HOK Washington, DC's design studio, Mr Hellmuth has achieved a reputation for creativity, design excellence, and superlative client service. His repeated selection for major landmark projects, commercial and several Federal Government facilities and agency headquarters, and his frequent recognition by prominent professional organizations, demonstrates his commitment to design excellence.

Mr Hellmuth has also been a driving force for sustainable design, acting as an advocate and a practical implementer of this "green" philosophy. Bill's recent sustainable designs include the US Environmental Protection Agency, National Wildlife Federation, and the US Embassy in Abu Dhabi, all of which received professional accolades for sustainability.

Mr Hellmuth's projects represent distinctive design solutions addressing diverse needs in function, building systems, methodology and materials. He has a wide array of domestic and international experience, including headquarters for non-profit organizations, corporate and government clients, mixed-use complexes, museums, hotels, developer office buildings and high-security/high-technology facilities. Select experience includes:

Experience **799 9th Street**

Duncan Kirk, RA

Principal

Education University of Idaho
Bachelor of Architecture, 1982

Registration MD, DC, VA, NCARB

Responsibilities A Principal at Hellmuth Obata + Kassabaum (HOK) in Washington, DC, Mr Kirk brings over 20 years of architectural experience to the office. As a Project Manager for the firm, he specializes in the leadership of some of HOK's largest projects. He is particularly experienced in working with developer clients and consistently completes projects within budget and schedule parameters. His wide range of previous experience includes several high-technology corporate facilities, speculative office buildings and mixed-use centers.

Mr Kirk's most recent projects include a master plan for BW Tech, the Chevy Chase Center, a mixed-use development in Chevy Chase, Maryland, and the recently completed Hampton Convention Center in Hampton, Virginia. He is also involved with the North Bethesda Town Center, which includes work on four speculative office buildings, as well as four office buildings in Crystal Plaza. Additional select project experience includes

Awards and Honors

Henry Adams Medal and Certificate-AIA for 2nd ranking graduate student (2000)

Teaching assistantship at VPI&SU College of Architecture and Urban Studies (1998-2000)

Registration

LEED® 2.0 Accredited Professional

Responsibilities

Selin Ozertugrul is a talented designer at HOK with over three years of experience with the firm. She will be responsible for communicating the design concept to the owner, project team and construction team. It is her responsibility to be an "advocate" for the design concept throughout the life of the project.

Ms. Ozertugrul sets the design direction of the project, carries it out in concept, and critiques the other design collaborators on their contributions. She will work very closely with Bill Hellmuth, Principal Designer throughout the life of the project. Some of Ms. Ozertugrul's relevant experience is included in the following:

Experience

700 6th Street, NW
Washington, DC

Metropolitan Park II
Pentagon City, Virginia

900 7th Street, NW
Washington, DC

Washingtonian North
Gaithersburg, Maryland
