To: Sharon S. Schellin, Secretary
Zoning Commission

From: Kenneth G. Laden
Associate Director for Transportation Planning

Date: January 12, 2007

Subject: ZC No. 06-39 – Catholic University Campus Plan Amendment and further processing Application (Square 3821)

The District Department of Transportation (DDOT) has reviewed the application and other material submitted by the applicant for further processing and to amend its Campus Plan. This memorandum addresses the transportation elements of the proposal.

This proposal calls for the construction of three residential halls in the northeast corner of the University's main campus, which is bounded by Taylor Street on the north, Michigan Avenue on the south, McCormack Road on the east, and Harewood Road on the west.

This further processing application includes only building one which consist of approximately 123,655 square feet and include 405 beds. DDOT notes that the proposed increase on-campus housing is consistent with the approved Campus Plan for 2002 through 2012. In that report DDOT recommended that the University increase on-campus housing to accommodate up 80 percent of the undergraduate students to further reduce traffic congestion and parking needs.

DDOT believes the University is moving in the right direction toward providing enough on-campus housing for its student population, a goal the Department shares. With respect to parking, the applicant's transportation consultant indicates that from 490 to 525 parking spaces are vacant during peak demand. We note that the proposed new residence hall will add 14 parking spaces to the current parking supply of 1,942 spaces for total of 1,956 parking spaces.
